DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see page 5, in combination with the amendments to the claims filed 10/5/2005, with respect to the rejection of claims 1-3, 6-13, and 16-20 have been fully considered and are persuasive. The rejection of claims 1-3, 6-13, and 16-20 has been withdrawn.
2. Claims 4, 5, 14, 15, and 21 were cancelled by applicant.
3. The limitation that the penetrator is etched into the substrate of the optoelectronic device imparts the structural limitation that the material of the penetrator and the material of the substrate must inherently be the same since the penetrator is etched out of the substrate. The prior art of record neither discloses nor renders obvious this limitation.

Allowable Subject Matter

4. Claims 1-3, 6-13, 16-20, 22, and 23 are allowed.
5. The following is an examiner's statement of reasons for allowance:
6. Claims 1-3, 6-13, 16-20, 22, and 23 are allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious an optical interconnect or a plural optical interconnect with penetrators that are etched into a substrate of an optoelectronic device and are thereby inherently made from the same material as the substrate in combination with the rest of the claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
